

Milton Antibacterial Hand Gel

No water required

Function :

Anti-bacterial, fungicidal and virucidal hydro-alcoholic hand gel to disinfect your hands without water. This ethanol and isopropanol based, rinse-free formula allows for a high disinfection spectrum, yet it still protects the skin thanks to its moisturising agents.

Thanks to the available conditioning sizes in 100 ml and 450 ml, it is very easy to disinfect your hands before and after any patient care or at any time when you need to disinfect your hands (ideal when travelling, before changing or feeding baby).

Physico-chemical characteristics:

Texture : gel

Colour : blue

Fragrance: sui generis

Biodegradability: > 90%

pH at 20°C (pure formula) = 7.4 +/-0,5

Directions for use :

Put a thumbnail size amount (3 ml) in your palm. Rub hands together until dry (30 seconds). No need to rinse. Leaves your hands soft and fragranced. Ideal when out and about ((work, public facilities, travel) or looking after baby (feeds, nappy changes).

Microbiological activity :

- Bactericidal: EN1040 in 30 sec, EN1500 in 15 sec.
- Fungicidal: EN1275 in 30 sec, actif on Candida Albicans (thrush)
- Virucidal: actif on HIV, HBV, Herpes simplex type 1 & 2, H1N1 (swine flu) in 15 sec.

Composition :

Ethanol (CAS: 64-17-5): 62% w/w, Propan-2-ol (CAS67-63-0): 10% w/w

Warnings :

- Easily flammable.
- Keep out of reach of children.
- Keep pack tightly closed and use in well ventilated area.
- Keep away from naked flame or incandescent material.
- Do not smoke.
- In case of fire, use CO2, chemical powder or mousse to existing to extinguish.
- If swallowed see a doctor immediately and show him the pack or the label.
- Contains fragrance.
- Can cause an allergic reaction.
