Antibacterial Laundry Cleaner – 1L

PROFESSIONNEL

Milton
MAXIMUM PROTECTION

Why do we need to disinfect laundry?

- Germs can survive low temperature wash cycles, which can be responsible for bad smells and infections
- To kill germs effectively in the wash, it is necessary to use longer wash cycles at a high temperature 90°C.
- The Antibacterial Laundry Cleaner is the ideal solution to have your laundry truly clean. Effective at low temperature it is energy and time saving.

PROFESSIONAL

Milton
MAXIMUM PROTECTION

Antibacterial Laundry Cleaner – 1L

Formula
to dilute

Key benefits

- ✓ Disinfects laundry in medical structures, nurseries, retirement homes...
- ✓ Effective from 20°C with the washing machine or hand washing
