

Room and Antibacterial Surface Spray Milton

Disinfects surfaces and freshens the air removing bad odour

Function :

- Anti-bacterial, fungicidal spray used to disinfect all surfaces after cleaning and to eliminate odours. Its bleach-free formula is also efficient on HIV.

Milton spray is a room disinfectant ideal for hospital use, in the home and in all areas where bacteria and fungi develop (patient room, maternities, bathroom, toilet, door knobs, tap, bin ...). Suitable to disinfect baby changing mats and to eliminate nappy odour.

Physico-chemical characteristics :

Texture : liquid
Colour : pale yellow
Fragrance: lavender eucalyptus

Spray characteristics

Propellant gas : butane-propane
Intern pressure 20°C : 3,7-4,3 bars

Directions for use:

To disinfect surfaces, shake well and spray directly onto surface. Leave to dry. No need to rinse. To freshen the air, spray toward the ceiling and in the room corners: 3 to 5 seconds for 12 to 20 m³, 15 seconds for 60 m³.

Microbiological activity:

- Bactericidal : EN1040 in 5 mn
- Fungicidal EN1275 en 5 mn, actif on Candida Albicans (thrush)
- Virucidal on HIV

Composition:

Active ingredient ethylic alcohol (CAS: 64-17-5)
 14.09% W/W Didecylidimethylammonium chlorate (CAS: 7173-51-5) : 0.011% W/W

Warnings:

- Extremely flammable.
- Keep out of reach of children.
- Do not breathe vapours.
- If swallowed seek medical advice immediately and show this container.
- Use only in well ventilated areas.
- Keep away from flame or source of ignition, heat or electric device in use.
- Do not smoke.
- Pressurised container.
- Keep away from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn even after use.
- Do not spray on a naked flame or any incandescent material.
- Spray in a series of short bursts.
- Do not use for any purpose other than the other one for which it is intended.
